### WILLIAM SHAKESPEARE DAY

Library KV2 Kasaragod + 4 + 7mo

#### William Shakesphere

William Shakespeare (bapt. 26 April 1564 – 23 April 1616) was an English playwright, poet and actor. He is widely regarded as the greatest writer in the English language and the world's greatest dramatist. He is often called England's national poet and the "Bard of Avon" (or simply "the Bard"). His extant works, including collaborations, consist of some 39 plays, 154 sonnets, three long narrative poems, and a few other verses, some of uncertain authorship. His plays have been translated into every major living language and are performed more often than those of any other playwright. His works continue to be studied and reinterpreted. Dear students, 23rd April we are celebrating this William Shakesphere's birth day. This is the time to know more about him and his works. So all students are inviting to participate the following events .
